11. The request for reconsideration has been considered bu See Continuation Sheet.	ut does NOT place the application i	n condition for allowa	nce because:			
12. Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s).						
13. Other:						

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are not persuasive. At first, Applicant argued that the elastic part 7 of Inubushi in Figs. 3 and 4 is not in contact with the first housing part 9 as required by the claims. The Examiner disagrees since Fig. 4 of Inubushi clearly shows that the right portion of the elastic part 7 contacts the first housing part 9 at right. Next, Applicant argued that the window of Inubushi in Figs. 3 and 4 does not contact the sheet 7. The Examiner disagrees since the window is considered as an opening of the second housing part on top of the liquid display and the elastic part 7 has the inner edge contact the peripheral surface of the opening as shown in Figs. 3 and 4 of Inubushi. Finally, Applicant argued that the teaching of Hasagawa would not be usable with the design of Inubushi since the layers 5 and 6 are intermediate the liquid crystal 4 and the parts 8 and 9 of the first housing. The Examiner disagrees since the liquid crystal display comprises a liquid crystal display panel 4 and layers 5 and 6. Accordingly, the adhesive member of Hasagawa is obviously applicable to the whole display of Inubushi to prevent the display from being dislocated or deformed due to vibration or shock .
